

**Superintendent Certification Program
Program-Level Assessments Fall 2004 - Summer 2016**

The superintendent certification program at Western Washington University has an assessment plan to measure candidate knowledge and skills relative to institutional, state and national standards. The assessment plan also yields data on which to base continuous program improvement. The plan includes assessments used at each of three decision points in the program: application, continuation and program completion. A number of course-based assessments have been developed internally for the evaluation of candidate performance and to evaluate program quality. Program components and candidate assessments are driven by the Washington Advisory Council for Professional Administrator Standards (WACPAS) and National Education Technology Standards (NETS). These internal assessments are gathered in courses taken throughout the program. The assessment plan can be viewed on the assessment system website: <http://www.wce.wvu.edu/Resources/AS/>.

The portfolio elements are scored on a four-level scale: Below Standard; Met Standard; Exceeds Standard; and Not Applicable. Since this is a cohort program, not all assessments occur each year, thus some "N" columns appear as zeros. These data were gathered in courses taught from the Fall of 2004 through the Summer of 2016.
