Rachelle Mills will be the GA for our department and the GSAC chair for the coming 2018-2019 school year. She has an undergraduate degree in Psychology and has completed her first year of AHE. She held an AmeriCorps position last year, as well as being a representative for Woodring College on the Graduate School GSAC. We are lucky to have her!

AHE GSAC

GSAC is an organization of Adult & Higher Education graduate students dedicated to enhancing the program’s graduate student experience at Western Washington University. The GSAC meets once each month throughout the academic year. Meeting dates and times are to be announced (TBA). Monthly meetings include planning for our annual spring retreat and organizing events for AHE students. The committee also hopes to reinvigorate the mentorship program for AHE. If you’re interested in joining or have questions about the committee you can visit https://wp.wwu.edu/ahegsac/ or contact Rachelle Mills at millsr5@wwu.edu. Please don’t let distance keep you from getting involved. GSAC is set up to be able to have members attend meetings online.

The Mentoring Committee at the third Annual Mentoring Conference @ Everett Community College, Friday – April 6th, 2018. This year’s theme: “Relationship Building.” The team presented their ideas regarding steps to begin a pilot mentoring program as students in a higher education setting. Their presentation was based on work completed in AHE 518-Current Issues in Education: Mentoring. Their needs assessment indicated that community and collaboration were most valued.

Ana Ramirez sharing her experiences and thoughts surrounding DACA.

This year’s retreat was centered on adult education in activism. There were four workshops: Art & Philosophy; Identity & Voice; Movement Politics; and Education. The Spring Retreat is an opportunity to hear from guest speakers regarding current topics and to participate in the workshops created in AHE 578 -Program Development. This year we were honored to have a speaker who is actively involved on campus and off.

Everyone was riveted by our guest speakers presentation!

AHE students write messages on strips of fabric. These strips are woven into a fabric where the messages disappear but are integral parts of the construction.
Everyone got ready to weave...

The Weaving begins....

Always ready to learn, students give all their attention to the presentations.
