For students who are concerned about the VR component of this class, here are some options. These three options work with most any cellphone and the quality will be fine for the purposes of our course.

1. $14.99: [https://www.amazon.com/Pocket-360-Compact-smartphones-Certified/dp/B01N4NOIUG/ref=sr_1_2?ie=UTF8&qid=1549354808&sr=8-2&keywords=google+cardboard+v2](https://www.amazon.com/Pocket-360-Compact-smartphones-Certified/dp/B01N4NOIUG/ref=sr_1_2?ie=UTF8&qid=1549354808&sr=8-2&keywords=google+cardboard+v2)

2. $19.95: [https://www.amazon.com/Virtual-Reality-Compatible-4-0-6-33-Cellphone/dp/B07K1XQ7J7/ref=sr_1_15?ie=UTF8&qid=1549355255&sr=8-15&keywords=VR+headset+for+phones](https://www.amazon.com/Virtual-Reality-Compatible-4-0-6-33-Cellphone/dp/B07K1XQ7J7/ref=sr_1_15?ie=UTF8&qid=1549355255&sr=8-15&keywords=VR+headset+for+phones)

3. $ 6.00: The other option is to purchase directly from Google Cardboard and build their own: [https://vr.google.com/cardboard/get-cardboard/](https://vr.google.com/cardboard/get-cardboard/)

Students who don't have a smart phone might use one that belongs to a family/friend or, in a pinch, view materials online without the VR component.
