1. Curriculum Items
   Passed: SEC 693 Course revision. Revision credit distribution.

2. Discussion Items:
   a. Graduate Faculty Governance Council:
      Beth presented information regarding the Grad School Curriculum Committee change to Graduate
      Faculty Governance Council. This changes is to recognize the Graduate School as a college with its
      own governance Council.
      New bylaws reviewed.
      There will be a 30 day review process where faculty across the university will be able to comment
      on the proposed changes, then a vote.
      Grad curriculum will still be routed to ACC.

   b. Scholarships:
      Discussion of the possibility of revising the application process for graduate level scholarships so
      that the applications would better address the required criteria for the scholarships.
      Genevieve Carrillo, who is support for scholarships, joined the meeting. Decision was made to
      invite Genevieve and Jackie Baker-Sennett to the next meeting for more discussion.

   c. Student representation:
      Student schedules make it difficult find representatives for the graduate curriculum committee.
      Stan will ask the AHE GA if she is available to serve on the committee.
